

## DUST MOP TREATMENT WB

### Water Based

#### DESCRIPTION

FLOOR DUST TREATMENT combines mineral oils with specially matched organic compounds. This product works like a magnet to actually pull dust out of the air down to the treated floor. This facilitates sweeping for quick efficient clean-up.

After applying this product with a trigger or compression sprayer to floor surface, residual action will continually pull airborne dust and pollen to the floor for up to one week after application.

#### INSTRUCTIONS

Directions: Using a trigger sprayer or compression sprayer, spray sparingly over entire floor covering at least 2500 square feet per gallon.

Follow with sweeping of floor with a good broom or brush.

#### FEATURES

- Water Based
- No odor

#### SPECIFICATIONS
