

## SPEED SEAL

### **DESCRIPTION**

A modern combination of acrylic copolymers metal cross linked to seal the resilient floor tiles in order to accept the multiple coats of floor finish. It is fast laying, quick drying and acts as primer for floor finishes. This floor finish contains cross metal linked copolymers in an opaque emulsion.

### **INSTRUCTIONS**

Apply full strength by mopping over freshly stripped and rinsed floor. It is important floors rinsed thoroughly with water to remove any stripper residue, otherwise the stripper residue will attack the sealer and the subsequent floor finishes will look hazy in some areas.

### **FEATURES**

- Produces durable seal
- Dries quickly for recoating
- Outperforms other sealers
- For use in high traffic area

### **SPECIFICATIONS**

Appearance:	White Emulsion	pH:	8 - 9
Odor:	Low	Biodegradable:	Yes
Specific gravity:	8.4 lbs. /gal	Detergency:	Excellent

### **SAFETY**

Keep this and all chemicals out of the reach of children! This product is non-toxic to users, and non-corrosive to metal, at any dilution. It is non-flammable as well and has no flash point.
